
CCIE Routing & Switching Lab Preparation

Duration: 5 Days **Course Code: CCIE2**

Overview:

This five day course is intended to be an intensive lab based preparation for CCIE Routing and Switching candidates and will consist 100% of lab exercises, supported by CCIE trainers. The labs are written to include all areas tested in the lab exam from January 2006.

Target Audience:

This course is aimed at candidates preparing for the CCIE Routing and Switching Lab Exam after having successfully completed the written exam and attended the CCIE Routing and Switching Part 1 - CCIE Core Technologies course

Objectives:

- Familiar with all areas covered in the Cisco CCIE Lab Blueprint and will have practised realistic simulated exam style lab exercises.
-

Prerequisites:

Delegates are required to meet the following prerequisites:

- Pass CCIE Written Exam 350-001 at 70% or higher
- Completion of QOS, BGP, IPVSF and IPVSD courses

Testing and Certification:

Recommended as preparation for exam(s):

CCIE Routing and Switching Lab Exam

Content:

This eight hour lab includes many technologies covered by the CCIE Lab Blueprint
