
Cisco Sales Essentials v5.0

Duration: 2 Days **Course Code: CSE**

Overview:

The Cisco Sales Essentials (CSE) training provides an overview of Cisco's architectures and solutions. This two-day course focuses on helping account managers and sales engineers understand the scope of Cisco solutions, the types of needs that these solutions address, and the key technologies that make these solutions possible.

V5 has been updated to align the coverage of Cisco products and solutions with the architectural approach that forms the basis of the Cisco customer-facing go-to-market strategy.

Target Audience:

Cisco Account Managers and Cisco sales people who are new to Cisco and need a conceptual understanding of Cisco architectures and solutions as well as an understanding of how to sell the correct solution for their customers business needs. This course is required for individuals looking to achieve the account manager accreditation in Cisco's Channel Partner Program.
